PROJECTS:

BuzzKill | <https://github.com/mgmoreno22/BuzzKill> | <https://salty-hollows-77148.herokuapp.com/>

- A local community app to report and track violations of local government health regulations regarding Covid-19 within your neighborhood.
- My core responsibilities revolved around project management, front-end development and responsiveness.
- Bootstrap framework with HTML, CSS and Javascript are used. For the back-end, a mysql database was constructed.

Worker Directory | <https://github.com/teresam3/worker-direct> | <https://teresam3.github.io/worker-direct/>

- Full stack website that tracks employees within a directory and able to search for employees using an API
- Created the front-end and back-end of the directory using React.js and Javascript.
- Used Bootstrap with HTML, CSS and Javascript were used and APIs were used to display data onto the site.

Employee Tracker | <https://github.com/teresam3/who-works-here> |

<https://drive.google.com/file/d/1Un9ZXwrFAV8Qyyp2Mab83IZbQIYcQTWY/view>

- A server-side application using MySQL database used to track employees within a company
- Developed the entire back-end application to work solely in the terminal.
- Used node.js and javascript as well as MySQL.

PROFESSIONAL EXPERIENCE:

Offline Editor, Glossier Inc. – Los Angeles, CA

April 2018 – August 2020

Welcomed 500+ customers daily, explained the structure of the store as well as helped choose products while facilitating a non-transactional environment and maintained the overall operations of the store.

- Being knowledgeable of ingredients and usage of 40+ products in makeup and skincare.
- Knowledge of both in store and online point of sale systems to facilitate any logistical concerns for customers.
- Assist with the receiving and packaging of inventory within the Los Angeles location.

EDUCATION:
